

In the time it takes  
to read this notice,  
you can help protect  
your climate future.

Young people have been marginalized in the national conversation around climate change. But they have the most skin in the game—even as they did not cause the problem in the first place!

Join in a pioneering effort this fall to convey with captioned photos what the Bay Area will look like in the coming decades. The beach? The woods? The canyons? Your backyard? You choose.

### EXCITING DETAILS

Everyday Climate Champions is partnering with Seeing for Ourselves (a nonprofit in Maine) on an initiative involving students across the country!

Your work can be featured in a gallery exhibit and a documentary film targeted for public television and film festivals worldwide!

**SAMPLE**

### YOUR BENEFITS

- Amplify your views about climate change
- Possibly earn a stipend for participating
- Get involved in a unique extracurricular
- Promote your school nationally
- Take a step forward to stardom (optional)
